1. Do They Have Extensive Experience?

Your dentist's experience should top the list when it comes to finding a new care provider. When you choose a doctor who has already seen a wide variety of dental needs, that means your doctor will likely have already treated a case similar to your own. That prior experience can help your dentist to foresee any potential risks or complications. With this knowledge and foresight, you can feel assured that your treatment recommendation is truly the best one for your situation.

Our award-winning dentist and experienced dental team have helped over 5,000 patients achieve healthy smiles since 2002. We believe in the importance of staying current with the techniques and technologies available for quality oral health care. For this reason, our dedicated team regularly attends continuing education courses to supplement our many years of education and advanced training to become dental specialists.

Our extensive experience and knowledge allow our practice to provide expert, professional care to match each patient's unique needs. With this level of education and experience, you can rest assured that you're receiving the highest quality care every time you visit Madison Square Dentistry.

2. Do They Have Advanced Technology?

Technology plays an important role in dental health care and is essential for diagnostics, efficient treatment, number of visits, comfort, and accuracy. Incredible advancements have been made in the last 20 years, which is why it's important to find out whether your potential dentist uses the latest technology for their patients' benefit.

At Madison Square Dentistry, we offer the very best, innovative treatment options using the most advanced technology, including:

- **Discreet teeth straightening** with removable clear aligners from Invisalign[®] or ClearCorrect
- **No radiation exposure** with iTero 3D digital imaging
- **Precise** soft tissue laser machine for increased efficiency and patient comfort
- **Zoom teeth whitening** for stronger, longer-lasting results in-office
- **Glidewell.io™ In-Office Solution** for fabricating same-visit crowns in one hour

By staying up-to-date on advancements in the field, our team also stays current on potential new technologies that may benefit our patients. You can count on us to do what it takes to provide you with the best dental care available today!

3. Do They Provide Various Treatment Options?

When you are considering a new dentist, a good question to ask is whether their experience also includes orthodontic care and providing a variety of the latest treatments instead of simply the same ones over and over. When you find a dental care provider who offers the latest dental and orthodontic treatment, you can benefit from the convenience of a practice that can handle all your dental needs under one roof.

At Madison Square Dentistry, our expert dentist has helped thousands of patients through a wide variety of dental treatments that range from regular dental cleanings and exams to fillings, dentures, dental implants, full mouth rehabilitation, and even orthodontic treatment with ClearCorrect Braces and Invisalign. We offer the very best, innovative treatment options to all our patients. You can count on us to do what it takes to provide you with the best dental and orthodontic care available today and all at our state-of-the-art office in Murrieta, CA!

4. Do They Provide Teeth-In-A-Day?

In today's modern world, everyone is busy! With work, school, and extracurricular activities, finding time in your schedule for dental appointments can sometimes be difficult. That's why when you're looking for a new dentist, it's a good idea to inquire if they offer accelerated or same-day appointments and treatment options.

At Madison Square Dentistry, we can help you transform your smile in as little as one day! In addition to a variety of cosmetic treatments such as veneers and teeth whitening, we also offer All-On-4 dental implants and dentures. Many of our patients find themselves surprised by the significant improvements we can make in just a single visit! In fact, we offer in-house crown fabrication in just one hour! This means you can walk out of our office beaming a beautiful, new smile.

When you feel ready to experience your healthiest and most confident smile, we invite you to schedule your exam and consultation with our expert cosmetic and restoration dentist.

5. Do They Offer a Guarantee?

Seeking proper dental care requires putting a lot of time and energy into the journey toward your ideal smile – the question is, what is your dentist putting on the line? Ask potential dentists whether they back their work with any guarantees. If you have concerns about how your treatment is progressing, how will they react? If you don't achieve the results promised during your initial consultation, what are your options moving forward?

At Madison Square Dentistry, we're so confident you'll love your experience with us, we back our treatments and services up with a **Satisfaction Guarantee**. Should you experience any issues with your dental treatment, simply let us know and we'll be happy to make it right.

We also proudly offer complimentary retreatment within two years of your original treatment, as long as you've followed Dr. Do's after treatment recommendations and are still a patient with us.

Additionally, with our convenient appointment times, we guarantee you'll never have to miss work or school for an appointment with us!

We're committed to providing the highest quality dental care to our patients and want to make the treatment process as convenient for you as possible. Ask for more information when you schedule your initial appointment today!

6. Do They Speak Multiple Languages?

If you or a family member doesn't speak English as your first language, then trying to discuss complex health concerns with any kind of healthcare provider can be stressful. In some cases, this kind of language barrier can even lead to poor treatment due to misunderstanding or miscommunication. We also know it can be challenging to find someone to join you in your appointment as a translator, especially if you need a short-notice emergency appointment. To avoid problems that can arise due to language discrepancies, ask your potential dental care provider if any of their staff are bilingual in your native language.

At Madison Square Dentistry, we recognize the importance of being able to communicate effectively with our patients for the best possible dental care. For this reason, we provide our services in Spanish, Vietnamese, and American Sign Language. This is just another way that we seek to go the extra mile to serve all members of our community.

7. Do They Have Convenient Appointment Times?

Making the decision to get dental or orthodontic treatment shouldn't interrupt your entire schedule, which is why doctors should implement flexibility for scheduling appointments. When looking for a dentist, make sure they offer flexible hours, short wait times, and same-day starts. With today's technology in a fast-paced world, this is a necessity for any successful practice to run efficiently.

At Madison Square Dentistry, we're committed to providing the highest quality care to our patients AND we want to make the treatment process as convenient for you as possible. We never want your busy schedule to deter you from seeing our specialists.

That's why we offer morning, evening, and Saturday appointment times for your convenience! In addition, we also provide the option to begin treatment on the same day as your initial evaluation. By offering same-day dental treatment starts, we put your scheduling needs ahead of our own – and we save you money by eliminating the cost of a second appointment! We also keep appointments running on time so you can count on being seen at your actual appointment time.

8. Do They Care for Your Community?

When you choose a dental office, pay attention to whether they do anything to support their community as a whole. Community support can range from monetary donations to supporting local sports teams to providing free dental care and more. By opting for treatment with a community-minded dentist, you not only indirectly support your community yourself but you can also enjoy the added benefit of receiving treatment from a dental care provider who genuinely cares about other people.

Madison Square Dentistry is dedicated to supporting our community and giving back. We regularly donate our time and resources to the following organizations:

- Free day of dentistry annually
- Over \$400k in donated treatment
- Dentistry from the Heart participation
- Donations to local charities & schools in the Inland Empire

Community support is a fundamental value for our team and we believe in giving back whenever possible. Do you know of an additional way we can help our community? Let us know by calling 951-457-6384

9. Do They Offer Discounts?

Discounts and rewards show that your doctor appreciates you as a patient and cares about giving back to you. Whether it be 0% interest monthly payments or taking a percentage off to save you money, it's good to know what your options are. When consulting with your potential dentist, be sure to ask if they offer any discounts or rewards.

Striving to be the best dentist in Murrieta, CA doesn't mean our team needs to be the most expensive! At Madison Square Dentistry, we want to provide everyone in the Inland Empire with the dental care they need and we never want anyone to settle for subpar treatment due to financial reasons. That's why we offer multiple ways to help you offset the cost of treatment, including discounts for our senior patients and to our patients who opt to pay-in-full for their dental treatment.

Ask one of our friendly team members for additional information on any of these discount options during your **Madison Square Dentistry New Patient Exam** or your complimentary **Madison Square Dentistry Orthodontic Consultation**.

10. Do They Continue Their Education?

With constant advancements being made in the ever-changing world of dentistry, even a doctor with extensive experience must do what it takes to stay on top of the latest industry developments. When you're researching for the right dentist for you and your family, make sure they are committed to keeping their practice current.

Madison Square Dentistry has the facilities, specialists, and experience necessary to provide comprehensive dental care with the best results. We're dedicated to staying on top of the latest developments and treatments in the field of dentistry. That's why our team regularly attends continuing education courses to supplement the distinguished education and training they received while pursuing their dental and specialist degrees. This extensive experience and knowledge allow our practice to provide expert, professional care to serve each patient's unique needs.
